

BUGOYE HYDROPOWER PROJECT

PLANT SURVEY MONITORING

PROJECT: PLANT SURVEY MONITORING
TYPE: ENVIRONMENT AND SUSTAINABILITY
LOCATION: KASESE DISTRICT, WESTERN UGANDA
CLIENT: BUGOYE HYDRO LIMITED
PERIOD: DECEMBER 2019 - MARCH 2020

PROJECT OVERVIEW

Bugoye Hydropower Project is located on Rivers Mubuku and Esya in 13 villages with the powerhouse & switchyard in Bugoye village, Bugoye parish, Kasese District. The project is operational, and the energy generated is fed into the national electric grid and evacuated to Nkenda Substation, located 6 kilometres (3.7 mi) from Bugoye, via a 33 kV transmission line.

SCOPE OF WORK

Proess was contracted to carry out survey monitoring services along the hydropower Plant.
