## PROJECT OVERVIEW

IVX Company and Proess were engaged to carry out baseline surveys for Uganda Transport Programmes (Ntoroko Port and Goli Border Post), and DRC Ports Programmes (Kalundu, Kasenyi, and Mahagi Border Posts).

The scope of services covered port and border surveys with components of traffic, time, user satisfaction, costs, and facilities.

## SCOPE OF WORK

IVX Company and Proess were engaged to carry out baseline surveys for Uganda Transport Programmes (Ntoroko Port and Goli Border Post), and DRC Ports Programmes (Kalundu, Kasenyi, and Mahagi Border Posts). The scope of services covered port and border surveys with components of traffic, time, user satisfaction, costs, and facilities.

### Services Offered

- Vessel passenger and freight traffic, particularly data on vessel size, numbers and origin and destination.
- Cargo statistics by category and weight.
- Vessel process times from arrival through different port processes to departure truck turnaround time at each port.
- Cargo waiting time before it arrives at the Jetty for example for larger vessels that can't access the arrival/docking point and Analysis of the adequacy of the porter gangs providing cargo loading and offloading services.

For the borders, the specific scope included obtaining:

- Vehicular traffic volume statistics disaggregated by day and vehicle category.
- Queue time and customs processing times.
